## REACH Compliance Letter

July 12<sup>th</sup> 2021.

Dear customer,

### **Subject : REACH Compliance Position for Chemours Titanium Technologies Ti-Pure™ Products**

At Chemours, Product Stewardship is an important aspect of our supply chain relationships. We maintain an unwavering commitment to safety for our employees, our contractors, and the communities in which we operate. We share that concern for all who handle our products. As both a manufacturer and importer/exporter of substances<sup>1)</sup> covered under REACH, Chemours has established a team to address all of the requirements as they apply to our suppliers, our customers, and our own operations.

Chemours is ensuring that all Ti-Pure™ products sold to our EU and EEA<sup>2)</sup> customers by Chemours legal entities in Europe<sup>3)</sup> are in compliance with REACH regulatory requirements, including pre-registration<sup>4)</sup> and registration.

REACH requires registration for individual substances (on their own or in mixtures<sup>5)</sup>) greater than 1 metric ton per year. Each importer is responsible for its own compliance with REACH.

Chemours Titanium Technologies confirms that, to our current knowledge, the above products **do not contain** any of the 219 substances listed on the Candidate list<sup>6)</sup> of Substances of Very High Concern (SVHC), as published on the ECHA website on July 8<sup>th</sup> 2021, in an individual concentration of  $\geq 0.1$  % by weight.

We also confirm that, to our current knowledge, the above products **do not contain** any of the 54 SVHC of the authorisation list<sup>7)</sup>, also known as Annex XIV, in an individual concentration of  $\geq 0.1$  % by weight.

---

1) Substance: A chemical element and its compounds in the natural state or obtained by any manufacturing process, including any additive necessary to preserve its stability and any impurity deriving from the process used, but excluding any solvent which may be separated without affecting the stability of the substance or changing its composition. (REACH, Art. 3.1)

2) EEA = European Economic Area

3) This includes the Chemours legal entities in the EU/EEA and Chemours International Operations Sarl

4) Chemours, for its products and brands, has submitted pre-registration files to ECHA for the substances requiring pre-registration that are manufactured/imported by Chemours. Receipt of those files has been acknowledged by ECHA. As per today's knowledge, the substances that Chemours is purchasing on the European market are intended to be or have been pre-registered by their respective manufacturers or importers.

5) Mixture : means a mixture or solution composed of two or more substances. (REACH, Art. 3.2)
