

Ti-Pure™

R-746 Titanium Dioxide

Product Information

Product Description

Ti-Pure™ R-746 is a multipurpose rutile titanium dioxide slurry of Ti-Pure™ R-706, manufactured by the chloride process, that is designed to deliver both high gloss and excellent durability in coatings. This outstanding combination of end-use performance properties makes it a versatile pigment in waterborne systems. The properties of Ti-Pure™ R-746 are listed in **Table 1**.

Table 1.

Analysis and Physical Properties of Ti-Pure™ R-746

Property (Dry Counterparts)	R-746
Solids, wt%	76.5
Grit Unbrushed, wt%, 325 Mesh Oversized	0.010
Grit Brushed, wt%, 325 Mesh Oversized	0.001
Slurry Density, lb/gal	19.4
Pigment, lb/gal	14.9
Slurry, pH	8.5
Viscosity, Brookfield at 100 rpm, cP	150
Rheology, Hercules Deflection at 500 rpm, cm	1.2
Emulsion Gloss, 60° at 27 PVC	NA
Emulsion Gloss, 20° at 18 PVC	59
Biocide, Nonmercuric, Nonformaldehyde Releasing	Yes

Note: All values are typical unless otherwise specified.

Test methods used to determine the reported data are available through your Ti-Pure™ sales or technical service representative.

Key Features

- High gloss
- Good hiding
- Blue undertone

High Gloss

Careful control of the TiO₂ particle size during manufacture of Ti-Pure™ R-746 results in exceptional gloss performance. R-746 has a tight particle size distribution, resulting in less oversized particles that detract from gloss.

Good Hiding

The low surface oxide treatment levels result in a high TiO₂ content for Ti-Pure™ R-746, contributing to good hiding. The mean particle size of R-746 approaches the optimum particle size for scattering efficiency.

Blue Undertone

Small particle size TiO₂ grades scatter blue light more effectively than larger particle size grades and hence have a bluer undertone. The bluer undertone of Ti-Pure™ R-746 imparts a brighter, cleaner tint.

Shipping Containers

Ti-Pure™ R-746 is available in rail cars of approximately 50 tons TiO₂ and tank trucks of 15 tons TiO₂. Call Customer Service for more information.

CAUTION: Do not use or resell Chemours™ materials in medical applications involving implantation in the human body or contact with internal body fluids or tissues unless agreed to by Seller in a written agreement covering such use. For further information, please contact your Chemours representative. These products may not be directly added to food, pharmaceuticals, cosmetics, or cigarette papers/filters for tobacco products.

For medical emergencies, spills, or other critical situations, call (844) 773-2436 within the United States. For those outside of the United States, call (302) 773-1000. The information set forth herein is furnished free of charge and based on technical data that Chemours believes to be reliable. It is intended for use by persons having technical skill, at their own discretion and risk. The handling precaution information contained herein is given with the understanding that those using it will satisfy themselves that their particular conditions of use present no health or safety hazards. Because conditions of product use are outside our control, Chemours makes no warranties, express or implied, and assumes no liability in connection with any use of this information. As with any material, evaluation of any compound under end-use conditions prior to specification is essential.
