**Absence of REACH Substances of Very High Concern (SVHC)
in Ti-Pure™ Titanium Dioxide Pigments**

Dear customer,

The intent of this letter is to clarify how Ti-Pure™ Titanium Dioxide Pigments are affected by the REACH 'Candidate List'. As supplied, there are no substances intended to be released from these products as defined by article 7(1) under normal or reasonably foreseeable conditions of use.

Chemours Titanium Technologies confirms that, to our current knowledge, the above products do not contain any of the substances listed on the Candidate list¹ of Substances of Very High Concern (SVHC), as published on the ECHA website on February 4, 2026, in an individual concentration of ≥ 0.1 % by weight.

We also confirm that, to our current knowledge, the above products do not contain any of the SVHC of the authorisation list², also known as Annex XIV, in an individual concentration of ≥ 0.1 % by weight.

We are committed to comply in every respect to the requirements of REACH and relevant amendments. At present we do not expect any anticipated Substances of Very High Concern to be in our above products requiring reporting to the supply chain.

Thank you for your interest in Ti-Pure™ products.

Sincerely,
Titanium Technologies
Product Stewardship Team

CAUTION: Do not use or resell Chemours™ materials in medical applications involving implantation in the human body or contact with internal body fluids or tissues unless agreed to by Chemours in a written agreement covering such use. For further information, please contact your Chemours representative. These materials may not be directly added to food, pharmaceuticals, cosmetics, or cigarette papers or filters for tobacco products.

For medical emergencies, spills, or other critical situations, call +1 844 773 2436 for those within the United States or Canada. For those calling from other countries, call +1 302 773 1000, using the appropriate international access prefix. If immediate assistance is required, contact local emergency services.

The information set forth herein is furnished free of charge and based on technical data that Chemours believes to be reliable. It is intended for use by persons who have technical skills, at their own discretion and risk. Users are responsible for evaluating Chemours materials under their specific conditions of use and for determining the applicability of appropriate safety, handling, and regulatory requirements, including those described in the applicable Safety Data Sheet (SDS). Because conditions of use are outside our control, Chemours makes no warranties, express or implied, and assumes no liability in connection with any use of this information. As with any material, evaluation of any compound under end-use conditions prior to specification is essential. Nothing herein is to be taken as a license to operate under or a recommendation to infringe any patents.

Permission is granted to reproduce and transmit this statement as reasonably necessary for internal use and for purposes of evaluation of Chemours materials, safe handling, regulatory review, and compliance documentation, including sharing with customers and regulatory authorities. Any other reproduction or distribution requires the prior written permission of Chemours.
