REACH Compliance Position for Chemours Titanium Technologies Ti-Pure™ Products

Dear customer,

At Chemours, Product Stewardship is an important aspect of our supply chain relationships. We maintain an unwavering commitment to safety for our employees, our contractors, and the communities in which we operate. We share that concern for all who handle our products. As both a manufacturer and importer/exporter of substances¹ covered under REACH, Chemours has established a team to address all of the requirements as they apply to our suppliers, our customers, and our own operations. Chemours is ensuring that all Ti-Pure™ products sold to our EU and EEA² customers by Chemours legal entities in Europe³ are in compliance with REACH regulatory requirements, including registration.

REACH requires registration for individual substances (on their own or in mixtures⁴) greater than 1 metric ton per year. Each importer is responsible for its own compliance with REACH.

Chemours Titanium Technologies confirms that, to our current knowledge, the above products do not contain any substances listed on the Candidate list⁵ of Substances of Very High Concern (SVHC), as published on the ECHA website on February 4, 2026, in an individual concentration of ≥ 0.1 % by weight.

¹ Substance: A chemical element and its compounds in the natural state or obtained by any manufacturing process, including any additive necessary to preserve its stability and any impurity deriving from the process used, but excluding any solvent which may be separated without affecting the stability of the substance or changing its composition. (REACH, Art. 3.1)

² EEA = European Economic Area

³ This includes the Chemours legal entities in the EU/EEA and Chemours International Operations Sarl

⁴ Mixture : means a mixture or solution composed of two or more substances. (REACH, Art. 3.2)

⁵ <https://echa.europa.eu/candidate-list-table>

We also confirm that, to our current knowledge, the above products do not contain any of the SVHC of the authorisation list⁶, also known as Annex XIV, in an individual concentration of ≥ 0.1 % by weight.

Thank you for your interest in Ti-Pure™ products.

Sincerely,
Titanium Technologies
Product Stewardship Team

CAUTION: Do not use or resell Chemours™ materials in medical applications involving implantation in the human body or contact with internal body fluids or tissues unless agreed to by Chemours in a written agreement covering such use. For further information, please contact your Chemours representative. These materials may not be directly added to food, pharmaceuticals, cosmetics, or cigarette papers or filters for tobacco products.

For medical emergencies, spills, or other critical situations, call +1 844 773 2436 for those within the United States or Canada. For those calling from other countries, call +1 302 773 1000, using the appropriate international access prefix. If immediate assistance is required, contact local emergency services.

The information set forth herein is furnished free of charge and based on technical data that Chemours believes to be reliable. It is intended for use by persons who have technical skills, at their own discretion and risk. Users are responsible for evaluating Chemours materials under their specific conditions of use and for determining the applicability of appropriate safety, handling, and regulatory requirements, including those described in the applicable Safety Data Sheet (SDS). Because conditions of use are outside our control, Chemours makes no warranties, express or implied, and assumes no liability in connection with any use of this information. As with any material, evaluation of any compound under end-use conditions prior to specification is essential. Nothing herein is to be taken as a license to operate under or a recommendation to infringe any patents.

Permission is granted to reproduce and transmit this statement as reasonably necessary for internal use and for purposes of evaluation of Chemours materials, safe handling, regulatory review, and compliance documentation, including sharing with customers and regulatory authorities. Any other reproduction or distribution requires the prior written permission of Chemours.
